

**EDUCATION:**

- |  |   |                      |
|--|---|----------------------|
| • <b>Masters, Software Engineering</b> | SAN JOSE STATE UNIVERSITY   GPA: 3.4        | <b>December 2015</b> |
| • <b>Bachelors, Computer Science</b>   | GUJARAT TECHNOLOGICAL UNIVERSITY   GPA: 3.4 | <b>August 2013</b>   |

**TECHNICAL SKILLS:**

**Web Technologies & Frameworks:** HTML/HTML5, CSS/CSS3, LESS, SASS, JavaScript, ECMAScript 2015 (ES6), JQuery, Ajax, Node.JS, Angular.JS (Beginner's Level), React, React Native, Redux, REST API, Vue.JS

**Programming Proficiency:** JavaScript, ECMAScript 6 (ES6), JAVA

**Database Technologies:** MySQL, SQL, Oracle, MongoDB, JSON

**Designing Proficiency:** Responsive Web Design (CSS: Bootstrap, Foundation), Logo Design, Adobe Photoshop CS, Figma, Adobe Illustrator CS5, User Experience Design, Adobe Edge Animate, Unity3D (Beginner's Level), Graphic Design.

**Methodology:** Agile, SCRUM, Black-Box Testing, Object Oriented Programming Principles. **Version Control:** GIT, JIRA

**EXPERIENCE:**

- |  |  |                                |
|--|--|--------------------------------|
| □ <b>Levi Strauss &amp; Co.</b>  | <b>Front End Web Developer</b>           | <b>June 2017-Present</b>       |
| <ul style="list-style-type: none"> <li>- Played a major role in building Next-Gen user interface for Levi Strauss &amp; Co.</li> <li>- Developing and implementing complex consumer facing e-commerce platform leveraging adaptive and responsive web-design principles to build consumer-centric features. Advocating quality end-user experience and web-accessibility by practicing current <b>HTML-CSS</b> best practices and user-centered design principles across various devices and screen size.</li> <li>- Collaborating with stakeholders on providing better solutions and enhancing UI performance by implementing lazy-loading, and deferred script solution and component reusability.</li> <li>- Practicing ADA and GDPR guidelines according to latest updates and maintaining code quality simultaneously</li> </ul> <p><b>Technologies:</b> Vue.JS, JavaScript (ES6), Semantic HTML/HTML5, SAP-Hybris CMS, CSS/CSS3, LESS, Bootstrap, JIRA, GIT, SASS, SCSS</p> |  |                                |
| □ <b>Apple, Inc.</b>   | <b>Front End-UI Developer (Contract)</b> | <b>Oct 2016-May 2017</b>       |
| <ul style="list-style-type: none"> <li>- Building features and fixes for CMS system that provides contents to other platforms such as web, support and mobile apps. Providing consistent modern suit of tools while following standardized UI/UX principles for elegant look and feel.</li> </ul> <p>Following strict coding and naming conventions for scalable, testable and re-useable code. Generating UI testing scenario and unit tests for components. Following Agile-Scrum methodology and adhering to planned Sprints for deliverables. <b>Technologies:</b> Can.JS, JavaScript, Semantic HTML/HTML5, CSS/CSS3, LESS, Bootstrap, Jasmine-Karma, GULP, JIRA.</p>  |  |                                |
| □ <b>Scalable Systems Research Labs, Inc.</b>  | <b>Software Developer</b>                | <b>March 2016-Oct 2016</b>     |
| <ul style="list-style-type: none"> <li>- Working closely with the CEO and the team lead in gathering requirements and designing the user interface components such as responsive prototypes, graphics and designs for different phases of product lifecycle for extensive user experience. Working on <b>SVG</b> and <b>Canvas</b> components using latest tools and technologies like <b>Adobe Photoshop, HTML/HTML5, CSS/CSS3, JavaScript, Bootstrap</b> to build mockups and logos leveraging design principles for better implementation.</li> </ul>   |  |                                |
| □ <b>Sun Net, Inc.</b>   | <b>Front End-UI Developer-Intern</b>     | <b>June 2015-December 2015</b> |
| <ul style="list-style-type: none"> <li>- Involved as an intern in developing the front end and UI Design application using web technologies like <b>JavaScript, HTML/HTML 5, CSS/CSS3</b> and frameworks such as <b>Bootstrap, Zurb Foundation</b>.</li> <li>- Collaborating within the team to improve and add dashboard functionalities to the system simultaneously focusing on making the UI more <b>user-centric</b> and <b>cross-browser responsive</b>. Leveraging <b>D3.JS graphs, Data Table</b> plugins for dynamic data visualization while testing and fixing major layout bugs for supported browsers. Deploying the system over the servers and controlling version through <b>SVN</b>, re-designing and maintaining web-app for smooth user experience. Used <b>Google Chrome-Dev Tools</b> for debugging the application and to traverse and manipulate DOM.</li> </ul>  |  |                                |
| □ <b>Doufish.com, Inc</b>  | <b>Front End Developer Intern</b>        | <b>March 2015-May 2015</b>     |
| <ul style="list-style-type: none"> <li>- Involved as an intern in developing the front end and UI Design application using web technologies like <b>PHP, HTML/HTML 5, CSS/CSS3</b> and frameworks such as <b>Bootstrap</b>. Contributing within the team to build web-system like yelp focusing on making the UI more <b>user-centric</b> and <b>cross-browser responsive</b>.</li> </ul>  |  |                                |

**PROJECTS:**

- |  |                    |
|--|--------------------|
| □ <b>LetzGO!! (Trip Advisor System)</b>  | <b>Spring 2015</b> |
| <ul style="list-style-type: none"> <li>- Built a custom trip recommendation system that helps locating local attractions on the fly and plan trips. Implemented <b>Material Design Principles</b> for creative user experience and interaction. Used <b>Ajax</b> effectively to create pagination and with client-side features like dashboard and timeline considering end-user for all stages of design and production.</li> <li>- Applied <b>SEO principles</b> and <b>Bing Translate API</b> for internationalizing visibility of the application and to boost web-app rank for search-engine results with cross-browser web-app at the same time maintaining responsiveness of application</li> </ul> <p><b>Technologies Used:</b> JavaScript, HTML5, CSS3, Parallax.JS, Google Material Design Concepts, Bootstrap, HTML 5, Adobe Photoshop CS5, Google Maps API, Amazon Web Services (EC2), Bing Translate, SEO Principles.</p> |                    |
